

## ABOUT THE RHODE ISLAND STATEWIDE PLANNING PROGRAM....

The Rhode Island Statewide Planning Program is established by Chapter 42-11 of the *General Laws* as the central planning agency for state government. The work of the Program is guided by the State Planning Council, comprised of state, local, and public representatives and federal advisors. The staff component of the Program is comprised of the Statewide Planning unit of the Office of Library and Information Services within the Department of Administration.

The objectives of the Program are to plan for the physical, economic, and social development of the state; to coordinate the activities of government agencies and private individuals and groups within this framework of plans and programs; and to provide planning assistance to the Governor, the General Assembly, and the agencies of state government. The Program prepares and maintains the State Guide Plan as the principal means of accomplishing these objectives. The State Guide Plan is comprised of a series of functional elements that deal with physical development and environmental concerns, the economy, and human services.

Program activities are supported by state appropriations and federal grants. Funding for production of this report was provided principally by grants from the Federal Highway Administration and Federal Transit Administration. State of Rhode Island general appropriations to the Statewide Planning Program provided additional support. The contents of the document reflect the views of the Statewide Planning Program, which is responsible for the accuracy of the facts and data presented herein. The contents do not necessarily reflect the views and policies of the U.S. Department of Transportation. This publication is based upon publicly-supported research and may not be copyrighted. It may be reprinted, in part or in full, with proper attribution of the source.

## ABSTRACT

**TITLE:** Travel Corridor Planning Initiative

**SUBJECT:** Statewide, long-range transportation and land use planning

**DATE:** November 2003

**AGENCY AND  
SOURCE OF  
COPIES:** Statewide Planning Program  
Rhode Island Department of Administration  
One Capitol Hill  
Providence, RI 02908-5872

**REPORT NUMBER:** 152

**NUMBER OF PAGES:** 155 including graphics and executive summary

**ABSTRACT:** This technical paper explores land use and transportation issues along seven major travel corridors in the State of Rhode Island. It documents two series of workshops with local planning officials and the general public and presents vision statements and goals developed for each corridor. This paper in its entirety is intended to be viewed electronically, either on-line at [www.planning.ri.gov](http://www.planning.ri.gov) or via a CD-ROM. No full reports have been printed; however executive summaries are available in hard copy. The material contained herein reflects the views of professional staff and the general public who participated in this effort. This is not adopted as a state guide plan element; nor does it constitute official state policy. Activities of Statewide Planning are supported by federal grants and state appropriations. This material may be copied and reprinted with the customary crediting of the source.
